

End of the Year Evaluation – 2012-2013

Staff Member: Lisa Pino

Conference Date: May 1, 2014

Position: Director of Educational Technology

As evidenced in her interactions with students, presentations, planning, coordinating and implementing various informational meetings, Lisa is an extremely conscientious and organized Director of Educational Technology. She structures everything she does around a positive learning environment for La Reina students. Lisa is a team player and provides solid direction and visionary leadership within the Technology Department. She is also credited with her many efforts to work with staff, teachers, students and parents in order to improve the website, its use and communication across the campus. She is a great resource to the administration and efficiently executed online course evaluations, both in the fall and the spring. Department Chairs appreciated receiving these course evaluations in a timely manner, in order to work with their teachers in aligning department and teacher goals for the upcoming school year.

Lisa further worked closely with the Guidance Department in helping to establish an online format for course counseling. She is always available to assist at a moment's notice and makes things happen in an efficient and productive way. The Technology Committee will become stronger each year because of the forward thinking initiatives that Lisa provides.

This was a hallmark year for La Reina, with the entire school community integrating iPad technology in the business operations and classroom instruction. For the 2014-2015 school year, Lisa will work continue to work closely with the Administrative Team and the Curriculum Committee to develop school-wide educational goals for technology integration for La Reina High School.

Principal: Sharon Gomez **Date:** 5/1/2014

This report has been discussed with me in conference with the evaluator. (The staff member, within five (5) school days, may make a written response to this evaluation, and the same will be filed with the evaluation.) A signature on this evaluation does not necessarily signify agreement with the evaluation.
