

Mrs. Lima,

It's me, Jason Kowski. You had me in your pre-algebra class in '94-'95. I would just like to thank you for getting me started off in the right direction. You built me a solid foundation to base the rest of my mathematical knowledge on. This year I'm graduating from Shawood Oaks High School and I will be attending UCSD next year with a major in mechanical engineering. I would just like to thank you for getting me started in the right direction. Thank you.

Sincerely,

Jason
Kowski
