

been a lucrative one for the laborers in the sardine factories, and to-day only five families are receiving aid from the City, which is the smallest number ever known in the City's history, at this season of the year.

The Alms House now contains eleven persons, all of whom are being well cared for by the Master and Matron, Mr. and Mrs. John W. Whalen. Besides the inmates of the Alms House, we have four persons being boarded at private houses.

I have tried to faithfully perform the duties devolving upon me as Overseer of the Poor, and submit the following detailed statement of expenditures.

Respectfully yours,

W. S. MILDON.
